Rating Action: Moody's upgrades Yeshiva University, NY to B2; revises outlook to positive

22 Jun 2021

New York, June 22, 2021 -- Moody's Investors Service has upgraded Yeshiva University, NY to B2 from B3 and revised the outlook to positive from stable. The university had approximately \$240 million of total debt outstanding at fiscal 2020.

RATINGS RATIONALE

The upgrade to B2 and outlook revision to positive reflects a combination of positive momentum on net tuition revenue growth driving improvement in the university's core operations combined with improvement in liquidity and financial resources. Management forecasts further strengthening of operating performance in fiscal 2021, driving a second year of positive operating cash flow on a Moody's adjusted basis. Management expects growth in key programs to drive another year of solid net tuition revenue growth in fiscal 2022. Management credibility, a key governance consideration under our ESG framework, is building as the university makes measured progress on turning around its troubled operating profile. Beyond improvement in operations, strong investment returns and a \$58 million lease monetization provide additional strength and more run room to execute turnaround initiatives.

Yeshiva University's B2 rating is supported by the university's scale, specific market niche which provides for market distinction and historically strong fundraising. However, credit quality is constrained by a complex business model, market challenges, and still weak operating performance requiring additional draws on reserves through at least fiscal 2022. Moreover, a multi-year period of low investment in physical facilities highlights escalated deferred maintenance, a longer term credit challenge which contributes to the university's fair strategic positioning. While the university has already monetized a portion of real estate to bolster liquidity, the rating continues to favorably incorporate the university's real estate assets as a credit strength.

RATING OUTLOOK

The positive outlook incorporates the potential for credit improvement if the university is able to sustain its revenue growth and expense controls, driving prospects for elimination of the structural deficit and debt service coverage from operating cash flow of at least 1x. The outlook further reflects preservation of liquidity and overall wealth over this period.

FACTORS THAT COULD LEAD TO AN UPGRADE OF THE RATINGS

- Ability to maintain progress on business transformation and enterprise-wide revenue growth, evidenced by the reduction of operating deficits and strengthening of debt service coverage to over 1x
- Demonstrated ability to rebuild balance sheet resources and unrestricted liquidity
- Articulated strategy and resources to invest in capital and programs to strengthen market competitiveness

FACTORS THAT COULD LEAD TO A DOWNGRADE OF THE RATINGS

- More rapid or steep decline in liquidity than currently anticipated
- Inability to reduce operating deficits in line with expectations
- Additional borrowing as operating cash flow is currently insufficient to meet annual debt service requirements, thus relying on available reserves to service these obligations

LEGAL SECURITY

The Series 2009 and 2011A revenue bonds are unsecured general obligations of the university. Bondholder security is subordinate to the mortgage and cash flow of certain parcels of campus real estate securing a \$140 million loan ("Y Properties"). Financial covenants associated with the privately-placed notes include

maintaining enterprise-wide liquidity and net assets in excess of specified levels. The university maintains a good cushion above these thresholds.
